

Columbus Ski Club 2022 Social Softball Rules and Regulations

The Columbus Ski Club Social Softball League is a private league. The following rules and regulations supersede the NSA rules and the CRPD "General Rules for Softball" observed by the City of Columbus.

A. Player Participation:

1) It is required that coaches play all players at least two (2) full games during the regular season. Unexcused absence or unexcused tardiness can be counted as a full game, if deemed necessary (keep in mind this is a **social** league). A **full regular season game** is defined as: playing the entire game in the field and batting the entire game. A player who bats the entire game but who only plays in the field for half of a game has not played one of their two full games.

2) When a player does not play a full game, all players are entitled to play at least 3 consecutive innings in the field for all games in the regular season and the tournament. Substitutions must occur at the top of the fourth inning.

Game roster combinations for the regular season:

With absences, if your team has:

- a) 5 men & 5 women: Team will bat 10, and all players will play the full game in the field.
- b) 6 men & 5 women: You have two options:
 - 1. Team will bat a 10-person lineup, and two men players will split the game in the field and at-bats. All five women will play the entire game in the field.
 - 2. If you choose this option, you must bat a 12-player lineup. You can pick up a woman sub at a rating equal to or lower than your missing woman player. **The woman sub will only bat, not play in the field.** Two men players will split the game in the field.
- c) 6 men & 6 women: Team will bat 12, and two women players and two men players will split the game in the field.
- d) 7 men & 5 women: You have two options:
 - 1. Team will bat a 10-person lineup, and four men players will split the game in the field and at-bats (2 sets of 2 men). All five women will play the entire game in the field.
 - 2. If you choose this option, you must bat a 12-player lineup. You can pick up a woman sub at a rating equal to or lower than your missing woman player. **The woman sub will only bat, not play in the field.**

Four men players will split the game in the field (2 sets of 2 men). Two of the four men splitting the game in the field will split at-bats.

- e) 7 men & 6 women: Team will bat 12, and four men players will split the game in the field (2 sets of 2 men). Two of the four men splitting the game in the field will split at-bats. Two women players will split the game in the field

In the tournament, all teams have the option to only bat 10 players at each game.

If a team has two players who need to split time in the field and at bat, the coach has two options. **Once a coach picks an option, they must utilize it for the entire game:**

Option 1: The two players who will be splitting time may switch out every other inning in the field, with player A playing in the field in inning one, player B playing in the field in inning two, player A playing in the field in inning three, and so on until the end of the game. If the two players are splitting at-bats as well, then the two players will switch every other at-bat.

Option 2: Player A will play innings 1 through 3, and Player B will play innings 4 through 6, and either player can play inning 7. If the two players are splitting at-bats as well, Player A will take all at-bats in innings 1 through 3, and Player B will take all at-bats in innings 4 through 6, and whichever player plays the field in inning 7 will take any at-bats in inning 7.

Regardless of which option is utilized, all players must play at least three (3) innings in the field for all games in the regular season and the tournament, unless a game ends after the fifth inning due to a run rule, or due to an injury.

3) Players arriving within less than ten (10) minutes prior to the scheduled start or after the game has started are played at the discretion of the coach. (Keep in mind this is a **social** league.)

4) Coaches who fail to play participants their three consecutive innings will be replaced. Exceptions include: 1) games called due to a lack of time, 2) games called due to run rule, 3) games called due to weather or darkness.

B. Player Conduct:

1) All participants will conduct themselves in a sportsmanlike manner towards their teammates, the opposing team, and the umpires.

2) Coaches or their designee are the only people permitted to question an umpire's decision or call. Arguing balls and strikes with the umpire can result in an ejection from the game.

3) An umpire's decision or call will only be overruled by filing an official protest with the City of Columbus (which only can be done through the Softball Committee). The Softball Committee will not change the call or ruling made by the umpire.

- 4) If an umpire is not performing satisfactorily, report it to the softball chairperson. The chairperson will contact the City of Columbus; coaches and players are not permitted to report umpires to the City.
- 5) If in the judgment of a coach, a player is physically unable to safely play the game, he/she may be removed or not inserted into the game. (This rule supersedes rules A-1, A-2, A-3, and A-4.)
- 6) Players and coaches are expected to treat each other with respect and be courteous at all times.
- 7) Any player or coach, who is ejected from a game, will be suspended for the next game they attend, and could be suspended for more games at the Committee's discretion. All coaches must report ejections to the softball league commissioner and/or chairperson immediately. An ejected player or a player under suspension for an ejection is ineligible to sub or play for another team the same day as the ejection, or while under suspension. A player ejected a second time is suspended for the next two games they attend, or further punishment at the Committee's discretion.
- 8) If the Softball Committee writes up a player for his/her unsportsmanlike conduct in 2 consecutive years, that player will not be permitted to play social softball the following year.
- 9) Unsportsmanlike conduct may be considered as any of the following: a) Ejection from the game; b) Throwing equipment; c) Arguing with umpires; d) Abusive language; e) Any other action that may be deemed as inappropriate behavior by the Rules Committee.
- 10) The Rules Committee will review the above actions within 48 hours after an incident. Any player or coach may report any misconduct to the Rules Committee.
- 11) Penalties may be verbal or written warnings, probation, suspension from games, season suspensions, or dismissal from The Club. **Unsportsmanlike conduct will not be tolerated.**
- 12) Smoking and vaping are prohibited in the dugout. In general, please be aware (with the wind) how your smoke is affecting others playing and watching games.

C. Coaches and NPA's:

- 1) All coaches will become knowledgeable of the CRPD league rules and The Club's rules. **Please keep these rules with you during all games.**
- 2) Coaches and/or NPA's are required to notify all players on their team in regards to scheduled practices and games.
- 3) Coaches should work with team members in regards to skills of softball, rules, regulations, and sportsmanship.
- 4) Coaches will keep in mind that this is a **social** league. Intentionally trying to hurt someone, sliding improperly, demeaning another player, arguing with umpires, team members or opponents will not be tolerated by The Club.

5) NPA's will be responsible for keeping an accurate scorebook and reporting scores and attendance. If a team does not have an NPA, this responsibility falls to the Coach.

D. Play of the Game:

1) "Cone" Rule: Outfielders must remain behind the painted lines until the ball is hit. Outfielders may not run to cover a base on the initial play, but may play the ball and back up the infielders once the ball is hit.

2) Infielder Defensive Positions: Infielders are not permitted to be in or inside the base line or past the back of the infield (i.e. on the grass) until the ball is hit, with the following exception: For male batters, all infielders **except the shortstop** are permitted to take three (3) normal-sized walking steps into the grass, for safety reasons.

3) Walks: Intentional walks are strictly prohibited. This is a **social league!!!!**

4) Sliding: It is the greater responsibility of the runner to avoid a collision; intent has nothing to do with it. The collision rule does not apply when the base runner is sliding. If you're going to slide, either do it right or don't do it. When a player avoids a fielder who is illegally blocking the base, the runner will be declared safe, even though he/she may not have reached base. The softball chairperson has the right to suspend a player for the entire season if the intent was deemed to injure another player.

5) Home Runs/Doubles:

- Diamonds 1,2,3,4:

Over the fence on a fly = first time per team per game is a home run.

Any hits over the fence after the first time, are an automatic out.

Over the fence on a bounce = automatic double, unless aided

Over the fence aided on a fly or bounce = automatic triple

- Diamonds 5,6,7,8:

In the woods on a fly = automatic double

Untouched and in the woods on a roll or bounce = automatic double

In the woods purposely touched or aided = all you can get.

Note: If a player makes a valid attempt to catch a ball and misses it and it rolls into the woods, some umpires will still call this an automatic double. They only allow "all you can get" if it was aided in the woods in the attempt to stop a runner at an automatic double. This is the umpire's discretion. We will not override the umpire's ruling - **continue play until the umpire calls 'Time.'**

- Diamond 5:

Going onto Olentangy River Road = automatic double

- Diamond 8:

Hitting the tree in right center field on a fly = automatic double

Entering or crossing the paved roadway in right field = automatic double

6) Poaching: Playing a ball hit to someone else (POACHING) will not be tolerated. **Let everyone play his or her position and learn the game.** The only exception being that it is the coach's prerogative whether the catcher or pitcher covers home plate. It is the coach's responsibility to make sure his players know and follow the poaching rule. The coach and player will be held accountable for poaching violations.

Moving a fielder out of position prior to a new batter so that they have little or no chance of being involved in a play, is a violation of the poaching rule. For ex., if a decent hitting left-handed hitter is up to bat, moving the Right Fielder all the way against the foul line and/or all the way up against the poaching line, so that the Right Center Fielder can have free reign in right field is a violation of the poaching rule. The Right Center Fielder can move closer to the Right Fielder to backup him/her in the event of a misplayed ball, but they can't overtake the Right Fielder's position.

POACHERS WILL NOT BE TOLERATED AND ARE TO BE REPORTED TO THE LEAGUE COMMISSIONER.

7) Batting 12: During the regular season, teams with one of the following combinations for a game: a) 6 women/6 men; or b) 6 women/7 men; will be required to use designated hitters and bat a 12-person lineup, **regardless of whether the other team will bat ten or twelve batters.** This is a social league.

For additional clarification on 6 and 6 rosters, refer to section E on "Lack of Sufficient Players".

During the end-of-season tournament, all teams have the option to bat ten or twelve batters in each game, at the coach's prerogative. After the start of a game, the coach cannot change the number of batters used during the game.

Each player on the team still must play three consecutive innings in the field and substitutions will be made in the top of the fourth inning. The only exceptions to three consecutive innings in the field are injuries and games that do not last past five innings.

8) Positions: Teams are not allowed to switch positions for a player more than once per inning (**For example:** a player is moved from right field to left field and the left fielder is moved to right field. Both players must finish the inning in their new positions). The only exception is pitcher.

9) Understanding the need to develop pitchers; If a coach wants to put in a player to pitch during a game who does not have a pitcher rating, the coach can substitute back in the team's rated pitcher at any time. This is allowed one time per game. The purpose of this is to allow some players to try pitching, so we can develop pitchers. **Both players must still play at least 3 consecutive innings in the field.** If the team is only batting 10 batters that game, the coach needs to make sure they carefully evaluate substitutions, so that if the rated pitcher must start pitching again, they don't find themselves with an illegal batting order.

10) Courtesy Runner: A courtesy runner will be allowed for a player injured during the game (**not prior to the game**) for the remainder of that game only, not for any successive games on the same day. The last of the same gender that made an out will be the courtesy runner.

11) Quick Pitching: Quick Pitching will not be tolerated. Players will be warned on the first occurrence, and suspended 2 games on subsequent violations.

12) Big Ball/Little Ball: Coaches are responsible for designating a third base coach each inning so the Big Ball/Little Ball can be switched between male and female batters. If the incorrect ball is pitched, the previous pitch must be repeated.

13) Benches: In case of a dispute, the home team will occupy the first base bench.

14) Mercy Rule: CSC will not observe the CRPD mercy rule of 15 or more runs ahead after 3 innings. We will stay with the 10 or more runs ahead after 5 innings rule that has been observed in past years.

15) Run Limit Rule: CSC will not observe the CRPD Recreational League Run limit rule.

E. Lack of Sufficient Players:

1) 6 and 6 Rosters: Unless certain substitutions are pre-approved by the Softball Committee, the following rules are to be followed.

2) If a team does not have a minimum of five women and five men the following rules apply:

a) Coaches must pick up enough substitute players to get up to five women and five men players for the game.

c) Teams with less than three women or men must have their substitutions verified by a softball committee member.

d) Substitute players' ratings will be equal to the highest and lowest ratings of the missing players. (This includes players who have dropped and the softball committee was unable to replace.)

e) Substitute players must have a current CSC softball rating, must be current CSC members and must have filled out and signed a softball application for the current year. If you are uncertain if your substitute player is eligible to play, ask the softball committee.

f) Coaches must notify the opposing coach of any replacement players they are utilizing prior to the game, and the rating of the absent player, and the rating of the replacement player. When replacing more than one absent player with a replacement player, each player and their rating is reviewed on an individual basis, not in aggregate (i.e., if you are missing two non-pitchers both rated 3.0, you can replace each player with a 3.0 rated player or lower, not a 5.0 and 1.0 rated player).

g) You cannot replace a player with a higher rated player, unless you have one of the following two exceptions:

(1) You may replace a 1-rated player with a 1.5-rated player.

(2) If your team has a pitcher rated a 'P' and your pitcher is absent, you may pick up a player designated as a pitcher. The ratings must be no higher than 0.5 point above the rating of the missing pitcher and of the same gender, unless pre-approved by the softball committee, **unless**: If your team has a pitcher rated a 'P' and your pitcher is absent, and that pitcher is rated a 2.0 or lower, you may pick up a player up to 1.0 point above the rating of your missing pitcher. **If you pick up a higher rated pitcher, that player must pitch for your team.**

h) If your team has two or more players on the roster with any pitcher rating of 'P,' 'PB1,' or 'PB2,' and one of your pitchers is absent and you choose

not to have one of the other rated pitchers pitch in the game, you may only pick up a pitcher up to the same rating of your missing pitcher. You may not pick up a higher rated pitcher.

i) If you are missing either 3 men or 3 women and one of them is your pitcher, and the pitcher is not the highest or lowest rated missing player, here are your options if you choose to pick up a pitcher:

- 1) If you use a pitcher with the same rating as the missing pitcher, you can then pick up a 2nd player that has a rating equal to or less than your highest rated missing player.
- 2) If you use a pitcher with a rating that is 0.5 point higher (or up to 1.0 point higher if your pitcher is rated a 2.0 or lower), you must then pick up a 2nd player that has a rating equal to or less than your lowest rated missing player.

Under either of the above options, the substitute pitcher must pitch for your team.

3) If a team falls below the required number of players during a game, the team may replace an injured player with a player of like rating. A team may not replace a player ejected from the game.

4) If a team member arrives while a replacement is in the game, the coach may elect to play the replacement until the end of the full-inning. After that time, the replacement player must come out of the game and the regular player be inserted into the game.

F. Roster Changes:

1) If a player fails to show up for two (2) games without notifying the coach or coach's designee at least 24 hours in advance, that person is considered to have dropped and must be replaced as soon as possible. The coach must notify their commissioner/committee.

2) If a player informs a coach that they will not be playing any longer, the coach must notify their commissioner/committee to request a replacement player as soon as possible.

3) If a player quits on his/her team in the middle of the tournament due to a dispute with his/her coach or teammates over playing time or playing position, or for any other reason with the exception of illness, injury, or work or family emergency, the Softball Committee can elect to make that player sit out the next season of softball. If during the tournament a player is unhappy with their playing time or position, they can discuss it with their league's commissioner, or the Softball Chairperson at that time, so that he may discuss it with the player and the coach. However, coaches are given latitude to coach the team as they deem best in the tournament.

G. Regular Season Division Champions:

1) The Columbus Ski Club Softball League has two leagues (Hoskins and Yaeger), and each league has two divisions.

a) At the end of the regular season, if one team has the best win-loss-tie record in division games versus the other teams in the division, that team is the regular season division champion.

b) If at the end of the regular season two teams have the same best win-loss-tie record in division games, the team that won the head-to-head game versus the other team is the regular season division champion. If the head-to-head game ended in a tie, then the team with the best overall win-loss-tie record when considering both division and non-division games is the regular season division champion. If due to rainouts the teams didn't play the same number of total games, the best overall record will be the highest winning percentage (total wins divided by total games played). If there is a tie between the two teams with the same overall win-loss-tie record (or winning percentage if teams have a different number of total games played), then the team with the highest run differential (runs scored vs runs given up) in the division games is the division champion. If there is a tie between the two teams with division game run differential, then the team with the highest run differential in all games (division and non-division) played is the division champion. If after reviewing division record, overall record, division run differential, and overall run differential, the two teams are still tied, then the division winner will be determined by a coin flip.

c) If at the end of the regular season three or more teams have the same best win-loss-tie record in division games, the team with the best overall win-loss-tie record when considering both division and non-division games is the regular season division champion. If due to rainouts the teams didn't play the same number of total games, the best overall record will be the highest winning percentage (total wins divided by total games played). If there is a tie between two or more teams with the same overall win-loss-tie record (or winning percentage if teams have a different number of total games played), then the team with the highest run differential (runs scored vs runs given up) in the division games is the division champion. If there is a tie between two or more teams with division game run differential, then the team with the highest run differential in all games (division and non-division) played is the division champion. If after reviewing division record, overall record, division run differential, and overall run differential, two or more teams are still tied, then the division winner will be determined by a coin flip.

H. Rules Committee:

1) The Rules Committee will consist of **Brian Blue, Bob Arnold, Tim Mahoney, Bob Robertson, Dave Sowers, and Beth Telander.**

2) All rules violations must be brought to the attention of the Rules Committee immediately.

3) Commissioners have the right to make lone decisions to resolve unforeseen situations. This would include temporarily overriding a league rule, if it is in the best interest of the Softball Program.

**This document is also available on the Columbus Ski Club web site:
www.columbusclub.org at the 2022 Social Softball page**
